

ASSET MANAGEMENT ACADEMY

A unique blend of world leading experience, training, workplace coaching and support for corporate and personal competency development.

THE
WOODHOUSE PARTNERSHIP

flexible solutions

Your training experience is handled by a single point of contact, dedicated to your needs.

CUSTOM SOLUTIONS

Organisations have different priorities and competency development needs. The TWPL Academy is uniquely experienced in identifying the gaps, designing appropriate requirement frameworks and building customised training and education programmes. This includes our broad range of blended learning techniques, embedded local case studies, workplace assignments and integration of education within normal working environments.

BLENDED LEARNING

The Academy takes enormous pride in the 'Blended Learning' approach that utilises the full mixed methods of course delivery, to enable maximum knowledge transfer to meet today's asset management working environment business needs.

These include, classroom or group working, workplace assignments, interactive workshops, personal mentoring and self-paced investigation and learning.

PROFESSIONAL DEVELOPMENT

The TWPL Academy is a world leading centre for formal and accredited asset management training and professional development. As Endorsed Trainers and Assessors for the Institute of Asset Management (IAM) since 2010, the Academy provides courses that are aligned to the internationally-recognised IAM Competency Framework and professional qualifications.

The Academy courses are far more than 'education'. The Academy will work with you, discuss which course best meets your career path and aspirations, and agree the appropriate courses and learning method.

DISTANCE LEARNING

The Academy has developed training for some of the largest multinationals in the world, with multi-cultural, multi-language and multi-industry experience. We design, build and deliver distance learning courses that merge the best of web-based training with personal attention and mentoring.

The TWPL Academy e-learning, internet-based coaching enables us to support our clients in all parts of the world, at a lower cost, and at a speed convenient to the students, while maintaining the personal feel.

built around your needs

Career-enhancing training to equip you with the skills needed for 21st Century employment.

WHAT THE ACADEMY OFFERS?

Innovative and flexible solutions to your professional development in the workplace, on specialist courses, via distance learning or customised coaching programmes.

Learn from real-world experts: all Academy staff have extensive first-hand asset management and senior industrial experience – they know what works in practice, and how to build real understanding and usable skills.

Supporting your organisation's corporate journey: we provide systematic programmes of organisation development guidance and support, including competency requirements assessment, strategic planning, generic and bespoke training programmes, certification services and workplace mentoring.

Supporting your own personal journey: we offer the most respected, transferable and accredited training for your career in Asset Management - from short courses to Masterclasses, from workplace and blending learning to formal competency and professional development qualifications.

ASSET MANAGEMENT SERVICES

There are many people claiming to be 'experts' in asset management, but few who can really show that they have what it takes to transfer that knowledge successfully and with sustainability. TWPL has an unparalleled track record of helping organisations to learn, grow and develop their own capabilities in their own style. The Asset Management Academy covers the whole process of identifying the priorities, clarifying the desired outcomes, providing the optimal mix of training content and delivery mechanisms, and ensuring that the learning is effective, applied and sustained.

During the past 20 years with customers in over 25 countries, we are recognised as the leading provider of education and training in asset management. Using our wealth of first hand industrial and management experience, sharing personal in-depth knowledge and practical experience.

Accredited courses from world leading experts

IAM Endorsed Training Provider

Formal academic programmes

Custom made programmes

Workplace mentoring

Real knowledge transfer

E-learning and distance learning

WHERE DO I START?

TWPL Academy staff can assist in identifying training requirements, priorities and competency 'gaps'. We have an extensive toolbox of proven assessment methods, to create a competency requirement profile for professional development planning. Alternatively we have an unparalleled range of off the shelf options, or a full depth of bespoke, in house public and distance learning services.

YOUR PROFESSIONAL ASSET MANAGEMENT CAREER:

The TWPL Academy can help you find out what your own priorities should be, and offers independent assessment of your existing skills, strengths and potential development areas. This helps you to make informed decisions about the best training and knowledge development priorities for the roles you are aiming for. Linked directly to the internationally-recognised Asset Management Competency Framework, the Academy programmes are an ideal route to professional recognition qualifications.

WHOLE ORGANISATION MATURITY & COMPETENCIES DEVELOPMENT

TWPL has an unparalleled track record of helping organisations to learn, grow and develop their own capabilities in their own style.

The TWPL Academy covers the whole process of identifying the needs and priorities, clarifying the desired outcomes, providing the optimal mix of training content and delivery mechanisms, accreditation and assurance schemes and ensuring that the learning is effectively applied.

THE BENEFITS - COMPETITIVE EDGE

The unique TWPL Academy 'edge' delivers where conventional training falls short:

- Pragmatism: skills development where skills make a difference, immediately.
- Engagement, interaction, motivation and higher productivity.
- Personalisation, confidence-building and long term knowledge retention.
- 'Self-funded' training: practical business problems solved during the course.
